1. Preamble:

The experience of the college life is commonly identified as a move away from the family and home. For many students, it may be the first instance to stay away from family restrictions and living an independent life. It is a transitional period in terms of economic status wherein, students are financially-dependent on the family, but they learn to manage their expenses by staying away from home. These factors bear tremendous changes in the behavioural aspects of students. Also, during this period, they are introduced to a wide range of technical / professional courses under the programs offered to them. At times, this adds to stress and anxiety amongst the students. If all these issues of students' life are dealt effectively and mentored properly, they may be moulded as sound professionals as per needs of the Society.

Mentoring is a professional relationship in which the Mentor strives to understand and improve upon the Mentee's abilities. Mentoring aids in the development of mentee's communication, interpersonal, and social skills, as well as providing a platform for enhancing a mentee's entire personality. Mentorship requires a commitment by the tenured faculty and administration to facilitate the establishment of mutually-rewarding relationships between Mentor and Mentee, proactive participation in the different aspects of the Mentee's academic and professional life, and continuous evaluation and re-evaluation of goals and achievements. Effective mentorship is a process that blends role modelling, advising and nurturing.

Bankura Christian College, a century old missionary institution has taken up the task of mentoring with top priority. Students have the facility of consulting round the clock and seek advice from a faculty member. The institution believes that a student's holistic development is essential for preparing them for life. The College Family thrives by establishing and upholding a professional and encouraging environment for its Mentees. Effective mentoring is vital for reaching academic and professional greatness.
