## Department of mathematics

### *Mentoring of Students*

### **OBJECTIVES**

There are many ways of assisting students who need extra help to maximize their learning outcomes. One effective way of doing this is to work with students one-to-one or in small groups outside of their class lessons to meet an immediate learning need. This can be done informally and or through a regular commitment of time.

The main objectives of mentoring students are

- To establish a good means communication for each student with the department and the institution.
- To identify and mitigate psychological & societal problems and academic issues faced by students and counsel them or refer them to experts for remedy.
- To identify the strengths and weakness of individual student and take necessary remedial action.
- To create a sense of oneness among students with the department and the institution.

## **THE PRACTICE**

- A group of 15 to 20 students allocated to each Faculty member by the Head of the Department after discussion in the departmental meeting for a particular academic session.
- Each teacher mentor meets the student allotted to him on regular then provides the needed counselling to them.
- Critical issues are brought to the notice of the Head of the Department or the Head of the Institution.
- The teacher interacts with the students informally outside class hours as well and guides them regarding their career options.
- A documented record of the mentoring process is maintained by the mentor teacher and the Head of the Department for reference purposes.

## **ROLE OF TEACHER MENTOR**

- Empower students to solve their own problems.
- Facilitate a sharing of knowledge, and understanding within the group.
- Allow students to work together on problems and issues that arise in their studies.
- Working as a group can often help reduce study-related anxiety, while improving one's self-esteem.
- Developing self-awareness and self-confidence.
- Continuously monitor, counsel, guide and motivate the students in all academic pursuits.
- Advises students in their career development and professional guidance.
- Keeps contact with the students even after their graduation.
