## An Awareness Programme on Intellectual Property Rights

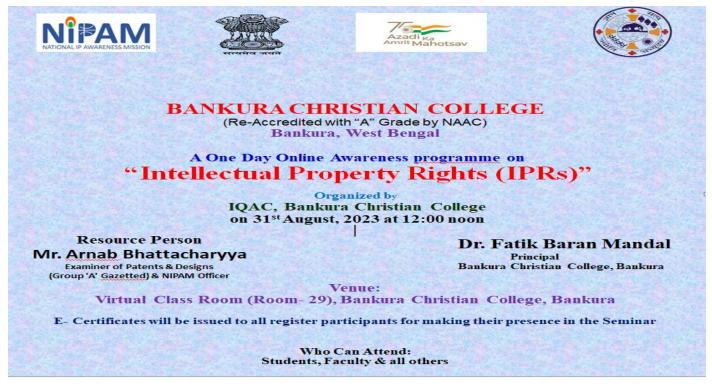

Date: 31.08.2023

Time: 12:00 Noon

Organized By: IQAC, Bankura Christian College

Funded By: Bankura Christian College

## **Brochure of the Seminar:**

**Resource Person with Designation:** 1) Mr Arnab Bhattacharyya, Examiner of Patents & Designs (Group 'A' Gazetted) & NIPAM Officer

2) Dr. Fatik Baran Mandal, Principal, Bankura Christian College

**No. of Participants** 

Teacher – 07

Non-Teaching Staff - 01

Students – 160

Others – NA

(Attach the attendance list of Participants)

## **Activity Report**

An awareness program on Intellectual Property Rights (IPR) is crucial for educating individuals and organizations about the importance, types, and mechanisms of protecting intellectual property. Here's a structured approach you could consider for organizing such a program:

1. Introduction to Intellectual Property (IP)

Definition: Explain what intellectual property is (creations of the mind: inventions, literary and artistic works, designs, symbols, names, and images used in commerce).

Importance: Highlight why IP protection is essential for innovation, economic growth, and fair competition.

2. Types of Intellectual Property

Patents: Protect inventions and new technologies. Trademarks: Safeguard brands, logos, and symbols. Copyrights: Protect literary, artistic, and musical works. Trade Secrets: Protect confidential business information.

PRINCIPAL BANKURA CHRISTIAN COLLEGE

3. Benefits of Intellectual Property Protection

Incentive for Innovation: Encourages creators and inventors to develop new ideas and technologies.

Economic Growth: Fosters industries based on knowledge and creativity.

Market Differentiation: Helps businesses distinguish their products and services from competitors. 4. IPR Infringement and Consequences

What Constitutes Infringement: Actions that violate someone else's IP rights.

Legal Consequences: Penalties and legal actions for infringement.

Case Studies: Examples of real-world IP infringement cases.

5. IPR Management Strategies

Registration: How to register patents, trademarks, and copyrights.

Documentation: Importance of keeping records to prove ownership.

Monitoring and Enforcement: Strategies for protecting IP rights and taking action against infringement.

6. Role of Intellectual Property in Different Sectors

Technology and Innovation: How IP drives advancements in technology.

Arts and Culture: Importance of copyright protection for artists and creators.

Business and Entrepreneurship: How IP rights impact startups and small businesses.

7. IPR and International Trade

Global Considerations: Importance of IP protection in international markets.

Trade Agreements: How international agreements protect IP rights across borders.

8. Resources and Support for IP Protection

Government Agencies: Organizations that oversee IP protection (e.g., USPTO, WIPO). Legal Assistance: Where to seek help for IP-related issues.

Online Tools and Databases: Resources for research and IP management.

9. Interactive Sessions and Q&A

Workshops: Hands-on activities for understanding IP concepts (e.g., trademark creation exercises).

Panel Discussions: Invite experts to discuss current IP trends and challenges.

Question and Answer Sessions: Address participants' specific concerns and queries.

10. Conclusion and Next Steps

Summarize Key Points: Recap the importance of IP protection and its benefits.

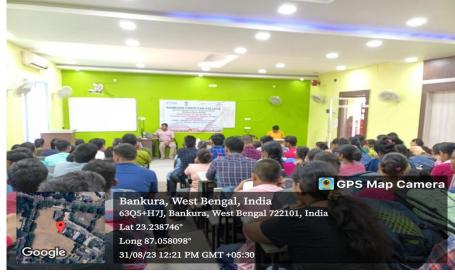

Call to Action: Encourage participants to apply their knowledge and protect their own or their organization's intellectual property.

Feedback: Gather feedback to improve future awareness programs.

**Convenor of the Seminar (Name with Designation):** Dr Atanu Ghosh, Assistant Professor, Department of Economics, Bankura Christian College
