Activity Report

Discussion by Resource Person 1 :

One day seminar about value education was held at Room No. 29, organized by Department of Philosophy, Bankura Christian College on 05/08/2022 at 3 pm. Our Resource Person Prof Bhaktipada Dalui discussed about Responsibility of teachers as role model in value education, How value education can be an integral part of our life and Values for every-day life. He expounded the dynamics of students' behavior which largely depends on the exemplified act of elders rather than on the precepts taught under a comfortable situation. He also discussed the subject of basic values like love, compassion, truth, non violence, good conduct etc. By thorough discussion the students themselves tried to understand these values, their applications in life and the need for integrating the values into daily life. They were asked to explore relationship between value and habit, character and behavior, and need for constant correction of student so as to mend them for value life. In general handling value education in life situation was the theme of discussion. We had a over whelming response and we had to conduct the seminar.
